**Unfortunately due to the Covid-19 Outbreak we had to cancel class. This sucks specifically for this course more than any! I am unsure when or if we will be back. Of note: This has been the strongest Leadership Class I have had at this school. We could have done really great things! You will all do great things going forward, I know that, I just wish we could have helped people together. All that said, here we are.**

As a replacement for your debate assignment, I would like you to write a 1 Page Single - Spaced reflection about both your debate topic and your experience working with your team to prepare. It would be easy to have you write an essay about your topic, but that isn't really what the course is about.

*Reflection Question: What was it like working with your team? What did you learn both about teamwork, communication and problem - solving and what did you learn about your debate topic? Do you agree with the resolution or not? Why or why not? Explain using some of the information you found and using specific examples of teamwork, communication and problem solving you encountered during the preparation process.*

***Email your response in a pdf file to [glaffin@jaddisonschool.com](mailto:glaffin@jaddisonschool.com)***
