How to Upload Large Video/Movie Files to Blogger

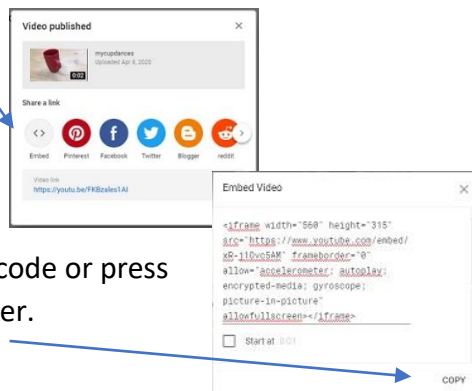

Blogger will only upload Videos with small file sizes. To Upload a Large Video/Movie File to Blogger, you will Embed the file from YouTube into a New Post.

Step 1 - Upload your Video(s) to YouTube. Your Gmail account includes YouTube. Two ways to do this below, read first. Choose 1 way.

1 Way - With Phone Photo Library -

- A. Save, or Export, your Video(s) on your PHONE as Video/Movie to 'Photo Library'
- B. Open Phone Photo Library, find your Video and select it.
- C. Using - AirDrop, USB cord, send by email, etc. ; Transfer, or Share, your Video(s) from your Phone to your Laptop
- D. On your Laptop – Open Browser, Go to Google.com
- E. Sign in with Your Google Account
- F. On the top right corner, Click on  >, choose  'YouTube',
 - a. Opens new window to YouTube
 - b. Press  'Camera symbol' in Top Menu (Create a Video and more...) > Upload Video
 - c. Select your preference to Upload your Video – Drag and Drop, or
 - i. choose the file > Select File
 - d. Details Menu window opens – at the bottom you will see the progress of your upload.
 - i. Title your Video
 - ii. Scroll Down for Audience - Select > *No its not made for Kids* > Press Next
 - e. Video Elements window– NONE > Press Next
 - f. Visibility window – Select > **Unlisted** > Press Save
 - g. Video Published – Choose > **Embed**

- h. In new window – Copy (Ctrl + c) Html code or press 'copy' button in the bottom right corner.

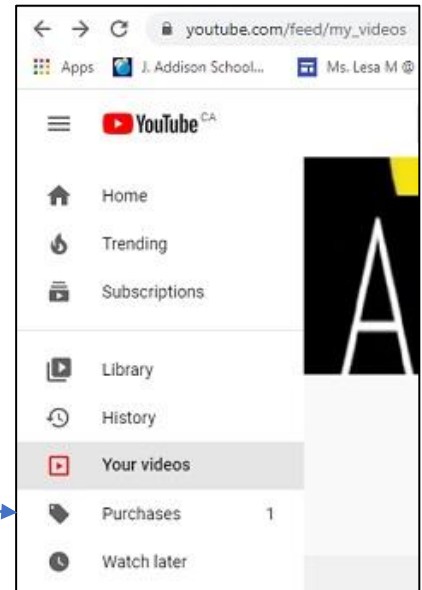

Go to Step 2 – Blogger (below)
