

Class of 2024 Notable Alumni

Valedictorian

“Being at JAS, made me realize that no matter what you’re doing, you have to keep going because there are people that trust and believe in you. Even at my worst, when I felt there was no longer time or ways for me to go forward, I remember teachers, students, and everybody counting on me. I remember when we had a PJ night at the dorm, and I realized that the JAS community is just lovely and precious.”

Precious | Gambia
York University
Science

“When I first got here in the car park, I was kind of nervous because it was a new school. But from the first day, they welcomed me as their own. It was kind and very wonderful. J. Addison has helped me a lot because right now I have about CAD 6,000 worth of scholarship. I will miss everything. Friends, memories, feelings.”

Bryan E. | Nigeria
Wilfrid Laurier University
Computer Science

\$100K Scholarship Recipient

“My first day at JAS I barely spoke English, I could only speak two to three sentences. However, throughout the years at J. Addison, I learned a lot. I made a lot of friends, and the staff are so friendly. Everything was so good, and it was a really happy experience for me throughout the years. I’m going to miss my friends, and I’m going to miss all the staff.”

Jane L. | South Korea
University of Toronto
Humanities

“J. Addison is an international school, so you have an opportunity to make a lot of international friends from around the world. The thing I will miss the most about J. Addison is my friends.”

Alireza R. | Iran
